

1. A configurable travel trunk, comprising:
2 a body portion having an interior with a depth and opposing inner side walls;
one or more shelves disposed within the interior of the body portion, each shelf
4 extending from one of the side walls to the other;
a closable door portion hinged to the body portion, the door portion having an interior
6 with a back wall defining a door depth;
a plurality of fasteners disposed on the back portion of the back wall of the door; and
8 a plurality of modular inserts, each insert having a back surface connectable to the
fasteners and a front surface with compartments adapted to carry a different set of items for a
10 particular travel application.

2. The configurable travel trunk of claim 1, including:
2 one or more removable and reconfigurable shelves with lower tracks; and
a drawer configured to slide in and out on the tracks.

3. The configurable travel trunk of claim 1, wherein one of the modular inserts is
2 a personal wardrobe insert with a front surface including a plurality of pouches.

4. The configurable travel trunk of claim 1, wherein one of the modular inserts is
2 a personal wardrobe insert with a front surface including at least one horizontally oriented
pouch and at least one vertically oriented pouch.

5. The configurable travel trunk of claim 1, wherein one of the modular inserts is
2 a personal wardrobe insert with a front surface including a plurality of pouches and a holder
for belts or neckwear.

6. The configurable travel trunk of claim 1, wherein one of the modular inserts is
2 a personal wardrobe insert with a front surface including a plurality of pouches, a holder for

belts or neckwear, and a removable jewelry case.

7. The configurable travel trunk of claim 1, wherein:
- 2 one of the modular inserts is an open box structure with sidewalls extending outwardly from the front surface; and
- 4 one or more elastic straps disposed on the front surface.

8. The configurable travel trunk of claim 1, wherein:
- 2 one of the modular inserts is an open box with sidewalls extending outwardly from the front surface; and
- 4 one or more hanging hooks disposed within the open box structure.

9. The configurable travel trunk of claim 1, wherein one of the modular inserts
- 2 includes a pegboard for holding tools or utensils.

10. The configurable travel trunk of claim 1, wherein one of the modular inserts
- 2 includes a pegboard with removable hooks and straps for holding tools or utensils.

11. The configurable travel trunk of claim 1, wherein one of the modular inserts
- 2 includes a shoe tree.

12. The configurable travel trunk of claim 1, further including a laundry bag that
- 2 can be rolled and fitted on one of the shelves.

13. The configurable travel trunk of claim 1, wherein the depth of the body
- 2 portion is substantially larger than the depth of the door portion.

14. The configurable travel trunk of claim 1, including modular inserts having

2 side tabs to assist in removal of that insert from the door portion.

15. The configurable travel trunk of claim 1, wherein the body portion includes a
2 set of integrated wheels and a retractable handle.

16. A configurable travel trunk, comprising: ✓
2 a body portion including a pair of integrated wheels, a retractable handle, and an
interior with a depth and opposing inner side walls;
4 the inner side walls of the body portion including vertical tracks configured to receive
a plurality of removable and reconfigurable shelves, each shelf including a set of lower tracks
6 to receive sliding drawers;
a closable door portion hinged to the body portion, the door portion having an interior
8 with a back wall defining a door depth less than that of the body portion;
a plurality of fasteners disposed on the back portion of the back wall of the door; and
10 a plurality of modular inserts connectable to the fasteners on the door portion, the
inserts including one or more of the following:
12 a personal wardrobe insert providing a plurality of pouches,
an open box structure with one or more elastic straps or hooks for hanging, and
14 a pegboard adapted to carry tools or utensils.

17. The configurable travel trunk of claim 16, including modular inserts having
2 side tabs to assist in removal of that insert from the door portion.

18. The configurable travel trunk of claim 16, wherein one of the modular inserts
2 includes a shoe tree.

19. The configurable travel trunk of claim 16, further including a laundry bag that
2 can be rolled and fitted on one of the shelves.
